ASBESTOS REMOVAL PROCEDURE DETAILS

I _____ of _____

confirm that the following procedures will be undertaken for the handling and management of asbestos at the above mentioned site (mark applicable box below).

Prior to removal Yes No

Completed form and any supporting documents to be submitted to the Town of Claremont part of initial Demolition Permit application.	
Neighbouring residents within 50m vicinity of the site must be notified prior to asbestos removal in the form of a letter drop.	
The property will be fenced to prevent unauthorised persons from entering the site and have signs erected to warn that asbestos removal is in progress.	
All asbestos must be removed from the site prior to the commencement of further building or landscaping works.	
All waste containing asbestos shall be disposed of at an approved land fill site in accordance with the <i>Environmental Protection (Controlled Waste) Regulations 2004</i> . This includes wrapping.
