Dear Resident/s

Claremont Crescent: After Hours Closure for Western Power Works

To prepare for the replacement of Congdon Street Bridge, Western Power has scheduled the relocation of several transmission poles in early September 2024. To undertake this work safely, Western Power has advised that Claremont Crescent will be closed after hours, as illustrated below, with signed detours in place for motorists.

Monday 2 September: Claremont Crescent closed to through traffic between Saladin Street and Australind Street, 7.30pm to 4am. Footpaths will remain open and traffic controllers will be on site to provide access for local traffic.

Yours sincerely,

Saidur Rahman
Project Manager
