

# COUNCIL POLICY LV131

## PRECINCT PARKING MANAGEMENT

KEY FOCUS AREA LIVEABILITY

### Purpose

The purpose of this policy is to provide guidance in order to balance the Town's Liveability objectives with the fair and consistent management of on-street parking.

### Policy

Council supports the following principles for the management of Precinct Parking

1. Public Access. Parking controls will recognise that streets are public places, open to all people, and to be managed in the interest of the public.
2. Liveability: the Town will prioritise use of on-street parking for residents, and their respective visitors.
3. Clarity: parking controls and parking precincts will be clearly signposted, and where possible, simple and consistent in order to minimise the risk of unintentional breaches.
4. Length: Two hour parking controls are preferred.
5. Consultation: The Town will consult with residents.
6. Hours of Operation: Parking controls in residential precincts will generally operate 8.30am to 5.30pm Monday to Friday and Saturday 8.30am to 12noon.

The Chief Executive Officer may vary any or all of the requirements and guidelines set out within this Policy.
