Important information inside
Claremont Crescent Verge Landscaping

31 March 2025

Dear Resident/Business Owner,

Verge Landscaping – Claremont Crescent

The Town of Claremont is pleased to announce the upcoming verge landscaping project for the southern side of Claremont Crescent (from Stirling Road to Saladin Street), starting **Monday, 14 April 2025**. We aim to complete most work by **Thursday, 17 April 2025**, weather and contractor permitting.

Project Goals:

- Improve the soil profile by incorporating compost, clay, fertiliser, wetting agent and mulch.
- Enhance native vegetation by planting local native understorey tube stock species along the verge below the existing street trees to:
 - Create a visually enhanced streetscape
 - Provide habitat for wildlife
 - Suppress weeds
 - Stabilise the verge against erosion

Project Steps:

1. Soil amendments using auger
2. Planting using auger
3. Mulching using trucks and dingo/mini bobcat
4. Clean up the work area

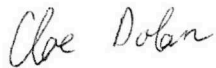

Project Schedule and Considerations:

- Works will occur on weekdays, 7am to 5pm.
- Traffic Management contractors will be in place for up to four days with a minimum of four staff. Claremont Crescent will be closed with detours in place to Shenton Road. Residents will be allowed access to their driveways.
- Aerial images showing specific work locations are provided below.

We understand this project may cause some inconvenience, and we'll strive to minimise any disruption.

For inquiries or further information, please contact me on 9285 4300.

Yours sincerely

Cloe Dolan
Manager Parks and Environment
